They have been testing these for several years now. Resilient Tech was developing them for a military application.

Amazing new tires...Michelin Tires... Absolutely SCARY looking... Look for 'em in August. These tires are made in South Carolina , USA. SEE THROUGH TIRES—Radical new tire design by Michelin.

The next generation of tires. They had a pair at the Philadelphia car show.

Yes, those are 'spoke' like connections to

the inner part of the tire from the outside tread 'wrap'!

The next picture shows how odd it looks in motion... Makes you wonder how the ride feels doesn't it?

These tires are air-less and are scheduled to be out on the market very soon.

The bad news for law enforcement is that spike strips will not work on these.

Just think of the impact on existing technology:

- A. no more air valves...
- B. no more air compressors at gas stations...
- C. no more repair kits...
- D. no more flats...

These are actual pictures taken at the South Carolina plant of Michelin.

- 1) What speakers would you like to have at our general meetings?
- 2) Would you like to see some again, if so, which ones?
- 3) Can you suggest anyone new or possibly a new topic?
- 4) Should we continue to get as many government agencies as possible?
- 5) Should we get more management & technical training presentations?
- 6) Would you like to have meetings with local vendors, for example, Napa, O'Reilly's, Auto Zone?
- 7) Do you have any further comments or suggestions that would benefit our Chapter?
- 8) Were there any meeting topics that were not beneficial and should not be repeated?

Thank you in advance for your attention to this matter, your cooperation is appreciated.
